

SWFL SENIOR HOMESHARE

SURVEY

The Home Coalition is launching the SWFL Senior HomeShare program in Lee and Collier Counties. It will match older adults who are looking for affordable housing with seniors who have extra space in their homes.

We want to hear from you — whether you're looking for housing, thinking about opening your home to a housemate, or you would like to lend your opinions to help us build a project that will best serve seniors.

Your answers will help us design a safe, supportive program that meets the real needs of older adults in our community.

This survey should take about 10–15 minutes. All questions are optional, and your responses will be kept private.

At the end of the survey, you'll have the option to share your name and contact information if you're interested in participating in the program or being contacted in the future.
